

AskKODIAK

FOR CARRIERS

An Exceedingly Simple
Way To Share Risk
Appetite With Agents
& Brokers.

Maybe your agents are ignoring your underwriting manuals. Maybe you just can't get out to meet with all of them fast enough. Either way, you know how hard it can be to keep everyone at your agencies from the CSR's to the principals current as your products expand into new classes and states.

Ask Kodiak is a digital marketing platform that puts appetite, eligibility, and product highlights in front of them instantly. It's easy to keep them current, making out-of-date product information in the hands of your agents a thing of the past.

Total Control

From appetite to branding all the way down to being able to control which agencies see your products, carriers are in the drivers seat on Ask Kodiak. With an easy to use set of tools Ask Kodiak doesn't require an IT investment or create a bunch of new work for your team to keep up with.

Know More About What You Don't See

What if your territory managers had better information about the kinds of opportunities had crossed their agent's desks? Unlike your own website, Ask Kodiak can give you a view into what your agents are looking for, even if they never sent a submission your way.
